## HE DREW A PISTOL.

Encounter Between Gen. Rice and Fred S. Barde.

## NO BLOOD SHED, HOWEVER

A Warrant to Be Sworn Out, Charging Mr. Barde With Threatening to Commit Murder.

A personal encounter between Gen. John H. Rice, editor of the Capital, and Fred S. Barde, city editor of the Gazette, was narrowly averted at Fourth and Ohio streets at 1 o'clock today.

One day last week Mr. Barde sent dispatches to the Kansas City Star and St. Louis Post-Dispatch, setting forth that Ex-Governor Humphrey and wife, of Kansas, were about to become financially interested in the Capital, and in consequence General Rice would retire.

The dispatches aroused the ire of Gen. Rice, who yesterday printed a five line paragraph that Mr. Barde considered a reflection upon his family.

At the hour stated this afternoon, Mr. Barde, who had been in waiting, met Gen. Rice opposite Fleischmann's and asked:

"Is this Gen. Rice?"  
"It is," answered the general. The following dialogue then took place:

"My name is Fred Barde and I take exceptions to a paragraph printed in your paper yesterday. I want you to correct it."

"I'll not do so."

"Will you give me the name of your informant?"

"No, sir, I'll not."

"You are a d—d lying s—n of a b—h from Kansas and I'll shoot your guts out," and at the same time Mr. Barde drew a revolver and pointed it at the general.

"No, you won't shoot anything," and so saying Gen. Rice continued walking south on Ohio street, followed by Mr. Barde, pistol in hand.

At the intersection of the walk leading to the court house, Mr. Wm. Latour, who was on the opposite side of the street, called to Mr. Barde and the latter gave up his pursuit of Gen. Rice. Instead, he crossed to Fleischmann's store, where he left his weapon, and returned to the Gazette office in company with Editor Baldwin, who in the meantime had arrived on the scene.

The language quoted above is from General Rice, who related the matter to DEMOCRAT reporter shortly after the trouble.

Mr. Barde was also seen. He was greatly agitated and did not deny having drawn a revolver. He expected to be arrested, he said, but had no regrets in the premises.

At 3:30 o'clock this afternoon, Gen. Rice was met en route to Justice Fisher's office, where he will ask for a warrant for the arrest of Mr. Barde on the charge of having carried a weapon and exhibiting it in a threatening manner.

Friends of both parties to the unfortunate affair have interested themselves this afternoon in the hope of averting further hostilities.

## CALLS A HALT.

Hon. Henry Lamm's Timely Words on Personal Journalism.

To the Editor DEMOCRAT:

It has passed into a maxim that it is unwise to interfere in a quarrel, but all rules have their exceptions, and is it not time to make an exception in the quarrel between the Capital and the Gazette? This quarrel has a direct tendency to demoralize the community, and it has become evil in the extreme. It distracts the public mind at a time when it should be concentrated. It divides the town into cliques and factions at a time when there should be unity of action, if ever, and at a time when men's thoughts should be in common. It spreads bad feeling, rancor, distrust and hectoring among the people at a time when we have enormous interests at stake; and absolute faith in each other, and loving zeal and accord, are the prime elements of success. It has discouraged Sedalia and disgraced us all at home, and it is the cause

of disgust among our friends abroad, while it makes our enemies encouraged and exultant everywhere.

The merits of it are wholly trivial compared to its amazing folly and the consequent public distrust.

Besides that, it has degenerated on both sides into mere scandal and vociferation quite beneath the dignity of the two estimable editors engaged in it. The people are tired of it. It has gone on and on until it is a nuisance and should be abated.

Both Mr. Baldwin and General Rice can see that they are disgraced by it if they would only see themselves as others see them. They are gentlemen of public spirit, education and fine capacity and their journals could be immense powers for our common good if they would stop airing their personal ill will and dislike, and pull together for the city that patronizes them. That city has crying and plain demands on them which they should not ignore.

I have been bold to speak out when my disposition was to say nothing, but the time has come to speak, in my opinion, and I am willing to take the responsibility on myself of saying what many are thinking, and have been thinking for a long time. HENRY LAMM.

## SUNDAY'S ACCIDENT

At the Missouri Pacific Railway Shops.

## A MACHINIST'S INJURIES.

The Cap of An Engine's Dome Blown Off and M. H. Speaddy Hurlled Into the Air.

M. H. Speaddy, a machinist at the west end roundhouse of the Missouri Pacific shops, had a narrow escape from a horrible death yesterday afternoon about 5 o'clock, by the blowing off of the cap of the dome of engine 235. As it was, he was scalded about the face and arms and suffered some injury to his back.

The engine was being gotten ready to go on the road. There was about 105 pounds pressure of steam on, and the engine had been run out of the house, about half way between the door and turntable. Mr. Speaddy was standing on the boiler, between the dome and the sand box, preparing to adjust the "pop valve."

Without a premonitory sound of warning the cap of the dome flew off and upward, and a great volume of steam and hot water came pouring forth. Mr. Speaddy was blown from his perch and fell several feet away. There was the sound of an explosion which was heard in all parts of the city, and in an incredibly short time several hundred people had congregated.

Some of Mr. Speaddy's friends rushed to his assistance, picked him up and carried him back into the roundhouse, and did what they could to relieve his sufferings. It was found that no bones were broken, but that his back had been injured by the fall. Mr. Speaddy had on a new pair of overalls, and these were torn literally into shreds, the pieces hanging about his feet.

No more serious damage was done to the engine than the blowing away of the top of the steam dome, including the safety-valve and the whistle. The heavy piece of metal went high in the air, but fell without doing any damage. The track where the engine stood was depressed several inches, so great was the power of the explosion.

## Came This Afternoon.

Governor Stone, Ex-Congressman Bland and Major T. O. Towles arrived from Jefferson City on the afternoon train. Mr. Bland is at Kaiser's, and Governor Stone and Major Towles at Sichter's.

## Two Calls Sent In.

## STRUCK BY LIGHTNING.

A Barn Burned, and Also Several Hundred Bushels of Oats.

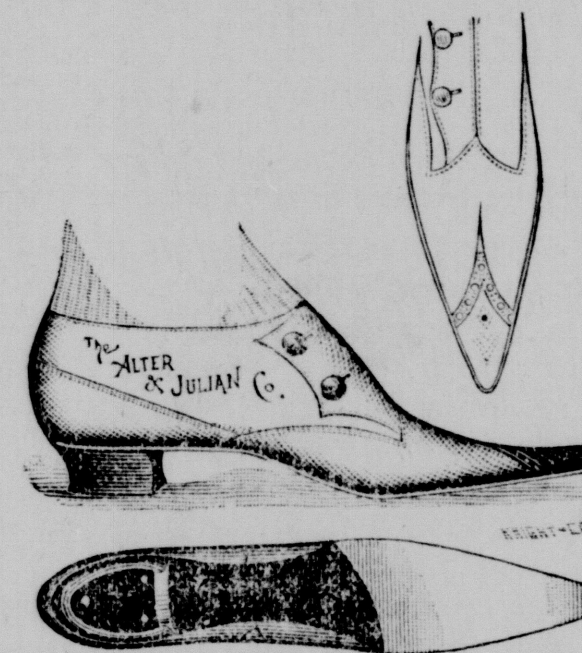

A barn on the farm of Mrs. Jane Shacklett, two miles northwest of Dresden, was struck by lightning last night. The structure at once took fire and was burned to the ground.

Stored in the barn were thirty acres of oats that would average about forty bushels to the acre, and a lot of farm machinery, all of which became a total loss.

The DEMOCRAT's informant was unable to say whether or not the property was insured.

## Monster Tomatoes.

John Jackson, of West Broadway, has on exhibition at this office four monster tomatoes raised in his garden, which are to be exhibited in

"Missouri on Wheels." They weigh, respectively, 1 pound and 11 ounces, 1 pound and 7 ounces, 1 pound and 10 ounces and 1 pound and 8 ounces. They are beauties, indeed, and are entitled to a place in "Missouri on Wheels."

## WRECK ON THE "KATY."

One Stock Train Crashes Into Another and Causes Serious Damage.

The second section of Missouri, Kansas and Texas stock train No. 104, in charge of Conductor Walker, and with Engineer Harris in the cab of engine 214, crashed into the rear of the first section of that train, Conductor Turner and caboose No. 114, at about 5 o'clock yesterday afternoon, at Beaman.

The engine of the second train was shorn of its woodwork, smokestack, headlight and pilot. The front of the smoke jacket was stove in and filled with wood and iron from the wrecked caboose. Several cars of the first section were mashed into splinters. Some thirty head of cattle were killed or badly crippled, while at least that many escaped from the wreck and went away. Some damage was done to the train behind the wrecked engine, but it was inconsequential as compared with the former train.

Conductor Turner had stopped his train on the main track at Beaman, and all the members of the crew had gone forward to cool a hot axle. The second section came along and ran into Mr. Turner's caboose with terrific force. Engineer Harris and his fireman jumped and escaped without injury.

The accident is one to be sincerely regretted, not alone for the loss sustained by the company, but that Mr. Walker is an old conductor on the road, has always stood well with the company, and will have to bear severe criticism for seeing carelessness. The engineer, Mr. Harris,

Under the standard rules of the road Mr. Turner's train stood at the station and was supposed to be protected by the switches. He was not required to look out for trains following, but it was the duty of Engineer Harris to have had his train under entire control in approaching a station.

Occurring at the station, the passenger trains were delayed but a few minutes. A wrecking outfit was gotten ready and sent out at once, and the wreckage was cleared off the rails in a little while. No one was hurt.

## TREASURER DEAD.

Typhoid Fever Finds a Victim in Elias D. Halstead at Dallas.

Elias D. Halstead, treasurer for Texas of the Missouri, Kansas and Texas railroad, died of typhoid fever at 3:20 this morning, at his home in Dallas, Texas, after an illness of several days. Mr. Halstead's remains will be taken to Milwaukee, Wis., for interment, but none of the arrangements for the funeral have been announced here yet.

Mr. Halstead was about 30 years of age, and has been treasurer in Texas since the reorganization of that road four years ago. He was a protégé of General Treasurer Maguire, and has held various positions under that gentleman, first on the Wisconsin Central, then on the Northern Pacific, coming thence to the Missouri, Kansas and Texas.

His sister, Mrs. Samuel Dixon, of Milwaukee, was on her way south to be at his bedside, and did not know of the death of her brother until handed a telegram by Mr. A. C. Miner after her arrival in this city. William Halstead, a brother of the dead man, passed through the city Sunday evening, en route to Dallas from his home at Milwaukee. Dr. E. F. Yancey went down

## MAY BE REORGANIZED.

Efforts Made to Detach Arkansas from Missouri Division, S. of V.

A good deal of correspondence is passing between the commander of Missouri Division, Sons of Veterans, whose headquarters is at Sedalia, and members of the order in Arkansas, relative in detaching Arkansas from Missouri and re-establishing division headquarters in that state.

Missouri division consists of the camps in Missouri, Arkansas and Texas. Arkansas division was suspended some years ago on account of lack of the requisite number of camps to maintain division headquarters. Now the commander of that division, Colonel Stotts, desires to reorganize, and is prepared, he says, to muster a sufficient number of camps to supply the quota. The matter is still unsettled.

## Demolished a Buggy.

Leslie Farnham was driving to the depot with a trunk this morning, when the axle of his buggy broke and the horse ran away, going north on Osage street from Fifth.

Leslie and the trunk were thrown out, while the steed continued to Second street, where it fell upon the street pavement, between the team and the wheels of a farmer's wagon that was passing.

The wheels passed over the prostrate horse, but the animal was not injured in the least. The buggy was demolished and the harness wrecked, but nothing more serious occurred.

## Death of John W. DeJarnett.

John W. DeJarnett, aged 47 years, died at the home of his brother, James DeJarnett, eight miles west of Sedalia, of general debility, at 5 o'clock this morning. The deceased was a bachelor and had been an invalid for many years. The interment will take place at the DeJarnett burial ground, four miles north of the city, at 2 o'clock tomorrow afternoon.

## A Lost Bicycle Found.

As previously stated, some one stole John Witcher's bicycle last week and rode it away. Yesterday he and John Brandt found it at a house in the southern part of town, with the pneumatic tire on the front wheel bursted. The thief had ridden it that far, and, finding the tire bursted and the wheel practically useless, abandoned it and continued his journey on foot.

THE DEMOCRAT, SEDALIA, MO.

Office, 307 Ohio Street. Telephone 232.

SEDALIA has long ago passed the age when personal journalism is appreciated.

THE editors conference tomorrow will bring to Sedalia many of the best known newspaper men of the state.

ON with the street paving movement. This is no time to sit still. All the streets must be paved sooner or later.

THE man of moderate means can find no location where better opportunities are before him than right here in Sedalia.

HEAR Senator Cockrell, Governor Stone, "Silver Dick" Bland and Col. Lon V. Stephens at Association park tomorrow.

THAT \$200,000 hotel is something Sedalia has needed for several years, and it will make a good starter for the autumn building boom.

EVERY citizen should hear the addresses at Association park tomorrow. There will be no charge for admission either to the hall or the park.

It will be a long time before Sedalians will have another opportunity to hear as eloquent orators as those who will address the public at Association park tomorrow.

THE republican papers are kind enough to suggest that the democrats elect a new state committee at Pertle Springs on August 6th. Thanks; but democrats as a rule are a little shy of following the advice of their enemies.

THE Pertle Springs convention, in addition to expressing the views of the Missouri democracy on the silver question, should take steps to thoroughly organize the party in the state. The last campaign should serve as a warning that real work will be needed.

In the meeting of democratic editors tomorrow is as largely attended as it should be, much can be done to restore harmony in the democratic party. The campaign of 1896 should be on lines that will be approved by every true democrat.

OUR two republican morning contemporaries are forcing the season with their personalities. It is not safe during the summer to permit the blood to become so heated, and the DEMOCRAT would suggest that the brethren put their minds upon some cool subject, such as Ben Harrison's candidacy for the presidency, for instance.

THE timely words of Hon. Henry Lamm, in this issue of the DEMOCRAT, on the subject of personal journalism, will be generally endorsed by the community. That evil has already resulted from the intemperate and ill-advised controversy that has been going on among Sedalians for some months, is patent to any one who will dispassionately consider the situation; and now that it has degenerated into a mere bitter personal quarrel, it is certainly time to stop. The DEMOCRAT is always ready to concede the right of opinion to any and every citizen, but there is no good reason for the warfare that has been precipitated in Sedalia. The city has been misrepresented and, as Col. Lamm says, the utterances of our own papers and our own citizens are being used against us by our enemies. Any newspaper of general circulation in Sedalia can safely permit the public to decide as to its merits or demerits irrespective of what some other newspaper or individual mischief maker may say about it. A newspaper

which does its duty honestly and to the best of its ability is safe against the shafts of enmity which may be launched against it. No newspaper can injure another by abuse or vilification, but a match game of that sort of amusement may injure the community.

### SEDALIA ALL RIGHT.

Sedalia's friends in the various sections of Missouri can get ready to hear some good news in the near future.

The enterprising business men of this community will not permit the outrageous claim of Jefferson City to an ownership in fee simple of the capital of the state to prevent the speedy deposit with the state officers of the capital guarantee contemplated under the law.

The act requires the guarantee to be put up by May, 1896, but long before that date—indeed within a few weeks from this time—Sedalia will have put her securities in shape and have in the hands of the proper state officials an ample guarantee that the state buildings will be erected free of cost if the people vote to remove the capital to this city.

This will be gall and wormwood to Jefferson City, whose press has undertaken by falsehood and misrepresentation to mislead the people of the state, and whose people have had the hardihood to seek, through their own circuit court, to establish a title to the state capital and forever prevent the citizens of Missouri exercising their right to locate their state capital where they please.

The substantial business men of Sedalia are at work, and they know no such word as fail.

The guarantee will be perfectly satisfactory to the state officials and to the people, and it will be in the hands of the governor months before the date fixed in the act requiring such security.

More than this the DEMOCRAT is not at liberty to say today, but this much can be set down as a fixed fact.

The Jefferson City press will have to swallow the falsehoods and misrepresentations it has uttered concerning Sedalia and Sedalia institutions or meet the punishment an intelligent people always visit upon the willful and malicious slanderer.

Those who have had their eyes upon Sedalia as the point for the investment of capital may as well get ready for business. The time for action is at hand.

### AN IMPORTANT CONFERENCE.

The meeting of democratic editors in this city tomorrow, as the DEMOCRAT understands it, is not for the purpose of starting a new propaganda in Missouri.

On the other hand, it is the desire of the editors who are called together to effect an organization for the purpose of combatting the new financial heresy that has been sprung in this country.

The democrats who will meet tomorrow believe—as they did in 1880, 1884, 1888, and 1892 and 1894—that the gold standard is wrong and that the bimetallic system which prevailed in the United States from the organization of the government until 1873 is right, wise and just.

It is old democracy reasserting itself against the isms that have sprung up from the seeds sown by John Sherman in 1873.

It is not proposed to divide the democratic party into hostile camps, but to appeal to every democrat who was honestly in favor of the platforms of 1884 and 1892, to continue the warfare against the monarchical gold standard.

The democratic party needs to be brought face to face with the principles upon which it was founded.

It is this, and nothing else, that will inspire the masses with their old time enthusiasm, and it is this for which the democratic editors will organize and labor incessantly.

Not to divide, but to unite.

Not to lead away into untried paths, but to reaffirm principles which brought prosperity to the people.

## RAILROAD RUMBLE.

A Verdict of \$30,000 for the Loss of Both Legs.

### 'Twas DEEMED EXCESSIVE

Items of Interest Picked Up From Various Sources for the Benefit of "Democrat" Readers.

A few weeks ago a jury in the United States district court at Cleveland, O., gave a verdict for \$30,000 against the Baltimore and Ohio Railroad company in favor of Charles Henthorne, who lost both legs in an accident. A motion for a new trial was filed.

Last Saturday Judge A. J. Ricks announced that in his opinion the verdict was too great, and was largely based, he believed, on testimony to the effect that the company knew the engineer who caused the accident to be a hard drinker and still employed him.

Judge Ricks stated that an examination of the company's pay rolls revealed the fact that the engineer was not in the company's service at the time of the accident. Defendant's counsel was informed by the court that if a judgment of \$15,000, half the amount awarded by the jury, was accepted, the motion for a new trial would be overruled.

Judge Ricks gave as another reason for his action the fact that in the adjacent court district in the west a jury recently allowed only \$12,000 damages in a case exactly similar.

### Souvenir of a Wreck.

Conductor Phil R. Adams has a souvenir shovel made from copper taken from the wrecked steamer Twilight, which was sunk in the Missouri river near Napoleon, Lafayette county, in 1864.

An effort is now being made to raise the steamer, and sufficient progress has been made that large sheets of copper have been recovered, out of which souvenir shovels were made and sold at 75 cents each.

## Who Was It?

Who said our knowledge and what we feel we do not know are like the radius and circumference of a circle? As we increase radius we triple the circumference. Just so with the World Medical Institute—every patient makes three more. Honest, conscientious and skillful physicians and successful treatment—that's why.

### VOICE OF THE PEOPLE.

Miss Lula Rogers, 527 South 11th St., Kansas City, Kan.

"I have been a sufferer from Catarrh and Scrofula for eighteen years of the very worst form. My people had spent a great deal of money in trying to have me cured without any benefit. My nose was completely closed with polypus so I could not get a particular of air through them for the last eight years, the doctors at my old home, Burlington, Iowa told me if they were removed it would kill me. The physicians of the World Medical Institute not only removed them, but completely cured me of all other complications. I am now perfectly well in every respect, and I owe my life and all there is in this world worth living for 'Health' to these skilled physicians."

E. L. Cooper, Gardner, Kan.

"I had suffered from Bronchial and Lung Trouble and Nervous Debility for six years, and could find no one who seemed to understand my case until I consulted the physician of the World Medical Institute, they told me they could cure me, and I commenced to improve from the start. Now I am well and strong again. They are worthy of the entire confidence of the sick and afflicted."

Attention cannot be too often called to the following facts: The physicians of the World Medical Institute are permanently located here, they are reliable and have a reputation to sustain. They are men of the highest skill and attainments in the medical profession, especially schooled and learned in their specialties. They treat Chronic Disease exclusively and have every facility known to modern science for the alleviation of suffering.

They have had a larger field of experience than any specialists now practicing and have long since gotten rid of the old foggy notion that medical treatment to be highly meritorious must be correspondingly expensive.

Their special offer of one month's free treatment, free to all commencing a course of treatment, expires August 1st and positively will not be continued after that date.

## The Pope's Decree Regarding Secret Orders.

## REV. FR. DICKMAN READ IT

At First Mass at the Sacred Heart Church Yesterday Forenoon—How It Was Received.

The recent decree from Rome in regard to Catholics withdrawing from the Knights of Pythias, I. O. O. F. and Sons of Temperance was received here Saturday and read at first mass at Sacred Heart church Sunday morning by Rev. Fr. Dickman.

In the absence of Bishop Hogan, of the Kansas City diocese, who is in Europe, the decree was forwarded to Sedalia by Very Rev. Fr. John J. Glennon, V. C., the letter and decree being as follows:

THE CATHEDRAL, KANSAS CITY, MO., July 19. REV. DEAR FATHER: By a decree received from Rome through the most reverend apostolic delegate, the following societies, to wit, the "Sons of Temperance," the "Odd Fellows" and the "Knights of Pythias" were declared prohibited to Catholics. The following is the reading of the decree:

"All the ordinaries of the various dioceses of the United States must use their exertions to keep the faithful away from all and each of the three societies, called: The Odd Fellows, the Knights of Pythias and the Sons of Temperance. And the faithful themselves must be admonished of this; and if after the admonition they still adhere to these societies, and will not leave them effectually, they must not be admitted to the sacraments. (Si velint eisdem ad haerere, nec ab illis cum effectu separari, a perceptione sacramentorum esse arcendos.)"

You will please explain this decree to your congregation and announce to them that it is hereby declared binding in this diocese.

Yours respectfully in Christ, JOHN J. GLENNON, V. G. The decree was also received by Rev. Fr. Murphy, of St. Vincent church, on Saturday, but was not read at yesterday's service.

There are a number of Catholics who, belong to the Knights of Pythias, and some of them, it is claimed, will withdraw from the church rather than sever their relations with the order in which they have carried insurance for years. One gentleman said soon after the decree was received from Rome:

"I do not expect it to be put into effect here, but if it is I shall not abide by it. I will not allow my church to interfere with my lodge, nor would I allow my lodge to interfere with my church."

There are no representatives of the Sons of Temperance in Sedalia, and very few Catholics belong to the I. O. O. F.

The decree was the subject of general conversation in Catholic circles yesterday, and as a rule it was endorsed, although some objections were filed on the part of those who belong to the Knights of Pythias.

## SEDALIA DEFEATED.

The Warsaw Club Too Much for the Home Alleged Talent.

A small audience witnessed the game of ball between the Warsaw team and a pick-up nine of Sedalia at the park yesterday afternoon. The "Tie Whackers" had a walkaway, winning by a score of 18 to 5, but the game had very few interesting features about it. The clubs were positioned as follows.

## SEVERE EXPOSURE

Often results in colds, fevers, rheumatism, neuralgia and kindred derangements. We do not "catch cold" if we are in good condition. If the liver is active, and the system in consequence doing its duty, we live in full health and enjoy life "rain or shine." To break up a cold there's nothing so valuable as Dr. Pierce's Pleasant Pellets. They keep the whole system regulated in a perfectly natural way. If we do not feel happy, if we worry and grumble, if we are morbid, if the days seem dreary and long, if the weather is bad, if things go awry, it is the liver which is at fault. It is generally "torpid." A common sense way is to take Dr. Pierce's Pleasant Pellets. We generally eat too much, take insufficient exercise, by means of which our tissue-changes become indolent and incomplete. Be comfortable—you are comfortable when well. You'll be well when you have taken "Pleasant Pellets." No Constipation follows their use. Put up sealed in glass—always fresh and reliable.

## HOSPITAL CORPS.

Major John W. Trader Has One Fully Organized and Equipped.

Major Trader, surgeon of the Second regiment, has about completed the organization of the hospital corps to be established during the encampment here next month. The first set of fours will be in charge of Hospital Steward Stevenson, of Nevada; the second set of litter bearers in charge of Hospital Steward Cowan, of Sedalia.

The ambulance is a first class United States army ambulance, supplied with everything necessary for caring for the sick and wounded. The men are being drilled in the work of the corps, and, while some of it is for show, they will be ready should an emergency arise to meet a sure-enough call in time of need.

## It is "Papa" Bob Now.

Bob G. Fitzpatrick, of Superintendent L. D. Hopkins' office, was buying soda and "pop" for all of his friends today. In fact, he was the happiest individual in Sedalia, and for the time being the capital removal subject is side-tracked, at least so far as he is concerned. This morning Bob's esteemed better half presented him with a little daughter, and the fact that mother and child are doing nicely is the cause of the proud father's general rejoicing.

## The Excursion from Warsaw.

Warsaw sent several carloads of excursionists over the narrow gauge to Sedalia yesterday. The train arrived about 10:30 a. m., carrying the Warsaw baseball club and their friends to the number of many scores. The visitors went to the parks, saw the ball game, visited friends, had a good time generally, and returned about 7 o'clock in the evening. All were enthusiastic and left town waving hats and handkerchiefs. It was an orderly, well-behaved crowd.

## Will Not Visit Sedalia.

Frank B. Moore, of the Daily News city staff, returned last night from his summer vacation. During the trip Mr. Moore visited Denver, Cheyenne, Santa Fe, Phoenix and other places of interest in the west. —St. Joseph Gazette, 21st.

Frank had intended visiting Sedalia before returning to his duties, but his sojourn in the west was prolonged beyond what he had originally intended, and in consequence his contemplated visit here had to be postponed.

It is a big thing to say but nevertheless true, that a great multitude of people have crowned Simmons' Liver Regulator the "King of Liver Medicines." There is nothing like it for Malaria, Rheumatism, Chills and Fever, Constipation, Biliousness, Sick Headache, Indigestion and all troubles arising from a sluggish or diseased liver. Simmons' Liver Regulator is the prevention and cure for these ailments.

## A Dry Sunday at St. Joe.

It required quite a little diplomacy to get a drink at St. Joseph yesterday, it being what might be called a dry Sunday. The police commissioners Saturday night ordered all saloons closed Sunday, and the order was obeyed. At midnight Saturday night members of the Y. M. C. A. went around and saw that all places were closed.

## MISSOURI ON WHEELS.

Board of Managers Arranging for the Coming Tour.

The board of managers of the "Missouri on Wheels" project met at the Business Men's League rooms in the Security building Saturday afternoon, says the St. Louis Post-Dispatch. The officers of the association, President Z. F. Bailey, of Sedalia; Vice President S. M. Kennard, of St. Louis; Treasurer W. H. Owen, of Lebanon; Secretary W. M. Simms, of Kansas City, and fifteen members of the board, one from each congressional district, were present.

A committee to map out a route for the proposed advertising train, consisting of Messrs. Z. F. Bailey, S. M. Kennard, W. H. Owen and W. M. Simms, was appointed to report at the next meeting.

A transportation committee from the Business Men's league will be appointed Monday to arrange with the Missouri railroads to transport products of the state for use in the project to Sedalia free of charge.

Messrs. Kennard, Owen and Simms were made a committee to report Monday at 4 o'clock on the cost of transporting the train over the proposed route.

It is proposed by the association to send a train of passenger cars loaded with the products of Missouri, handsomely arranged for display, through the northern and eastern states. Sixty-five of the principal towns in Missouri are now raising money and getting together products of their neighborhood with which to equip the train for its long journey.

Among the numerous persons who have been cured of rheumatism by Chamberlain's Pain Balm, mention should be made of Mrs. Emily Thorne, of Toledo, Wash., who says: "I have never been able to procure any medicine that would relieve me of rheumatism like Chamberlain's Pain Balm. I have also used it for lame back with great success. It is the best liniment I have ever used and I take pleasure in recommending it to my friends." For sale by P. E. Ott, W. E. Bard, A. T. ## NARCOTI CURE

CURES THE TOBACCO HABIT IN 4 TO 10 DAYS OR MONEY REFUNDED.

USE ALL THE TOBACCO YOU WANT TILL YOUR "CRAVING" IS GONE.

NARCOTI-CURE is the only remedy in the world that acts directly on the nerves and drives the nicotine from the system in from four to ten days. It leaves the patient in better health than before taking, and is warranted free from any injurious ingredients.

NARCOTI-CURE is popular because it allows the patient to use all the tobacco he wants while under treatment, or until the "craving" and "hankering" are gone. It is then no sacrifice to throw away tobacco forever.

NARCOTI-CURE is sold at the uniform price of \$5.00 a bottle, and one bottle cures.

Money refunded if a cure is not effected when taken according to directions.

THE NARCOTI-CHEMICAL CO., Springfield, Mass.

GENTLEMEN: Replying to yours of the 1st, would say that I have used tobacco for 46 years, and of late have consumed a 10-cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only 11 years old, and have never been able to give up the habit until I took Narcoti-Cure, although I have tried other so-called remedies without effect. After using your remedy four days, all "hankering" for chewing disappeared, and in four days more smoking became unpleasant. I have no further desire for the weed and experienced no bad effects whatever. I am gaining in flesh and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say, use Narcoti-Cure. Yours truly, W. N. WAITE.

If your druggist is unable to give you full particulars about NARCOTI-CURE, send to us for book of particulars free, or send \$5.00 for a bottle by mail.

## SANK WITH THE SHIP.

Nearly Two Hundred Lives Lost in the Gulf of Genoa.

GENOA, July 22.—The Italian steamers Ortigia and Mariapo collided off Isola del Pint, at the entrance to the Gulf of Genoa, yesterday. The latter sank and 148 people were drowned.

The Mariapo was bound from Naples to La Plata. There was a crew of seventeen and the passengers numbered 173. She was calling here en route to her destination.

She was entering the Gulf of Genoa at 1:30 o'clock this morning when she met the Ortigia, outbound. They only noticed each other when a collision was inevitable.

The bow of the Ortigia crashed into the starboard side of the Mariapo, penetrating six yards and ripping up the Mariapo like matchwood. The water rushed in through the hole and the boat sank in three minutes.

The majority of the passengers were asleep at the time of the accident and had no time to escape after the alarm was given. They were engulfed with the vessel.

Then the Ortigia remained on the spot until 6 o'clock in order to pick up the survivors. She rescued fourteen of the crew and twenty-eight of the passengers of the Mariapo.

Other steamers have been dispatched to the scene of the disaster and are now searching for further survivors.

## The Knights of Tabor.

The grand officers of the Knights and Daughters of Tabor are in session at the court house this afternoon, transacting business preliminary to the eighth annual meeting of the order.

Tonight there will be a public meeting at the court house, at which Mayor Hastain will deliver the address of welcome, and the programme printed in SUNDAY'S DEMOCRAT will be carried out.

## Police Court.

In the police court this morning John O'Neill, William McFadden, George White and Louis Lee were fined for intoxication; McFadden \$5 and the others \$3 each. McFadden was also fined \$10 for resisting an officer.

Louis and Henry Brummer were arrested for fighting, but their cases were continued.

## Subdividing a Tract.

County Surveyor Stanley and an assistant are subdividing a twenty-acre tract owned jointly by F. E. Hoffman, Joe Hughes and J. N. Dalby, east of New York avenue and south of Sixteenth street. Two of the gentlemen will get six and a half acres each, the third taking the seven-acre tract.

## Weigh Office Fixed Up.

Charlie Gross, city weighmaster on the market square, has had the interior of his office repainted, the railing and furniture varnished, and many other improvements made. It is as neat as a maiden's boudoir.

## A TERRIBLE DEED.

Joe Noska Attempts to Exterminate a Family.

## MOTHER FALLS A CORPSE.

Two Children Fatally and a Baby Seriously Wounded—The Father Seriously Shot.

NEW ORLEANS, La., July 22.—Last Friday night, on the Terre Haute plantation in St. John's parish, a terrible butchery of human beings took place. While Rosario Giordano and his family were seated at the supper table Joe Noska walked up to the door and leveling a double-barrel shot-gun, fired. Mrs. Giordano fell to the floor a corpse and the bullet that did not go through her went through both legs of the four-months old infant she held in her arms. Mr. Giordano, fearing that the tender babe would be killed in the fall, sprang forward to clasp it and the assassin then fired again. The buckshot entered the groin and leg of Mary Giordano. The 10 year old little girl, on seeing her mother fall, ran forward and received a portion of the load of buckshot that struck her father. The shot entered her abdomen, literally tearing it to pieces. At the same time little Nicolina fell to the floor wounded through the head.

The assassin, Joe Noska, did not move from the spot, but when he saw Benedetto Giordano, a nephew of the dead woman, and Charlie Columbo coming toward him he coolly placed two fresh shells in his gun and waited until they got very close to him. Then he raised the gun and fired both barrels, the two men falling to the ground dead. Then, the murderer, throwing his gun over his shoulder, made his escape to the woods. When the citizens ascertained the extent of the deed, they organized a posse, and, led by the sheriff, attempted to capture the assassin. The wounded were brought to the Charity hospital in this city. They are:

Rosario Giordano, the unfortunate head of the family, aged 34 years, shot in the left thigh.

Mary Giordano, aged 10 years; shot in the abdomen, the bullets perforating the bladder and intestines.

Nicolina Giordano, aged 7 years; shot in the corner of the eye, the bullet penetrating the skull.

Joseph Giordano, aged 4 months, shot in both legs and in the head.

The two little Giordano girls at the hospital will die: the father and the 4-month-old baby will recover. The assassin has not yet been captured.

Mr. Giordano says he does not know how he had offended Noska, who was a laborer on the place, except that on one occasion the overseer, who is a friend of his, told the man to do some chores. Giordano, however, had nothing to do with this. Giordano had been living on the plantation with his family for the past few years. Last October Noska (or Ganaste) came from New York to work on the plantation. He is a married man and lived with his wife and two children on the place. The assassin and the wounded man had never had any trouble whatever and no ill-feeling as far as the wounded man knew existed between them.

## Waiting for the Cells.

Work is progressing slowly on the new jail building, the delay being caused by the failure of the representatives of the Pauly Jail company, which has the steel contract, with the cells. The new cells will take the place of the old, which will be moved to the rear of the building.

## Grading Papers.

County Superintendent Driskell this morning began grading the papers of the thirty applicants for teachers' certificates at the recent institute. Nearly all of them had ten sets of papers each, and some had eighteen, so that the task is no small one. He hopes to conclude by Thursday night.

**PASTOR INSTALLED.**

Impressive Ceremonies at Trinity English Lutheran Church.

Rev. J. F. Seibert was installed yesterday as pastor of Trinity English Lutheran church, corner Tenth and Vermont streets.

The installation ceremonies were conducted by Rev. H. L. Yarger, A. M., of Atchison, Kas., field secretary of the church extension board, and Rev. F. D. Altman, A. M., of Kansas City, pastor of the Children's Memorial Lutheran church and president-elect of the Western Theological seminary at Atchison, Kas. Following is the programme of the morning services, at 11 o'clock a. m.:

**MORNING SERVICE, 11:00 A. M.**

Considering the excessive heat during the day and the threatening weather in the evening, the attendance at the services was exceedingly large and gratifying.

The floral decorations, while simple, under the artistic touch of Florist Koepfen, were beautiful, and added to the solemnity of the occasion.

The music was appropriate, and proves that it lends a great aid to place the worshipers in a proper, worshipful spirit.

At the installation service proper, in the evening, the church was crowded, and the services were most solemn. Following was the programme:

## Smashed a Window.

The trolley wire at Third and Lamite streets broke at noon today, the detached end of it striking and demolishing one of the large panes of glass, 6 1/2 by 14 feet, in the Sedalia Carpet Co.'s store. The loss is more than \$100.

## Work on Seventh Street.

The work of grading East Seventh street for asphalt paving was begun this morning and will be pushed along merrily. The asphalt plant at Tenth street and the railroad is now in splendid shape.

## Are Going to Camp Out.

The Sedalia Rifles will camp out next Saturday night and Sunday, at Association park, practicing routine camp work as a sort of preliminary to the encampment next month.

## In Business Again.

Chas. Koock & Son will open out a first class tailoring establishment over Hain's grocery store, 373 Ohio street, where they will be pleased to see their friends after today.

## TEN CENTS A MINUTE.

Men Whose Services Command a Salary of \$50,000 a Year.

That Is About the High-Water Mark for Any Individual's Work in This Country. Figures for the Day and Hour.

Fifty thousand dollars a year! Think of it!

Four thousand one hundred and sixty dollars and sixty-seven cents a month, \$1,041.67 a week, \$148.81 a day, \$6.37 an hour, and a little more than ten cents a minute.

That is the salary received by each of a number of well-known men in this country.

A recent dispatch from Raleigh, N. C., is to the effect that Will W. Fuller, of Durham, N. C., who already has the largest income received by any lawyer in the state, has been engaged as counsel by the tobacco trust at a salary of \$50,000 per annum.

That amounts to more than the average man earns in a lifetime. It would be a fortune to many.

The president of the United States, the chief magistrate of the nation, does not receive a greater remuneration for his services, with all the responsibility which that implies.

In fact \$50,000 per annum is regarded as the high-water mark at which man's service can be valued individually in this country.

And yet it is surprising to note the number of prominent officials in this city alone who draw this amount annually, over and above their incomes resultant from other financial transactions. Very truly it is said: "To him that hath shall be given."

Almost without exception the recipients of enormous salaries are men already wealthy, or at least, entirely independent in their circumstances.

The services of Chauncey Depew, as railroad president, are valued at \$50,000 a year. Rather than risk losing this snug annual income Mr. Depew politely declined an invitation to become a member of President Harrison's cabinet.

Henry B. Hyde, president of a life insurance company, receives a like amount.

President John A. McCall and Richard A. McCurdy, both life insurance presidents, draw \$100,000 a year between them in salaries alone from their respective corporations.

Among those whose time is worth \$6.37 an hour yearly, are President Thomas T. Eckert, of the Western Union, Henry O. Havemeyer, president of the sugar trust, and railroad President Roberts.

Among the ministers of the gospel Rev. John Hall, of the Fifth Avenue Presbyterian church, commands the highest salary. He gets \$35,000 a year, all of which is devoted to charity.

Rev. William S. Rainsford comes next, with a salary of \$25,000. His time and money are equally distributed among his parishioners, with the exception of an occasional indulgence in his proclivities as a huntsman.

The presidents of several of the big trust companies receive \$35,000 a year each, and J. Edward Simmons, president of the Fourth national bank, who is a conspicuous figure in the financial world as the leader among the new school of bankers, receives the same amount.

Jay Gould's physician, Dr. Munn, has been for several years in receipt of an annual salary of \$20,000 from the Gould family.

On the turf, where money isn't money until the day is over, enormous sums are paid the leading jockeys. Fred Taral, for instance, receives a retainer of \$18,000 from the Keenes for one year's services. This amount is probably doubled by the emoluments and perquisites which accompany his position.

Jockey Harry Griffin, who is but 18 years old, gets, as a retaining fee, \$1,000 for each year he has lived from Gideon & Daly, besides fees paid him by others for the privilege of having second or third call upon his services.—N. Y. Morning Journal.

## Extraordinary Smuggling.

The genius of the smuggler is a very remarkable thing.

One of the most amusing stories of smugglers is that told by an Englishman who imported into his own country a number of fine fat geese at the Christmas season, many years ago. One of them having excited the suspicions of the inspectors by its wonderful weight was killed and opened, upon which it was discovered, says the chronicle, that there was concealed within it a number of small dutiable articles. The rest of the flock having been similarly inspected, it was found that their owner had compelled the unhappy birds to swallow a large quantity of stuff upon which there was a heavy duty, and which would have all come in free had not the first goose excited the suspicion of those in charge.—Harper's Young People.

## WOODEN BOOKS.

A Curious Collection of Volumes Made from Forest Trees.

Among the various collections of curios, the Historical museum of Hesse-Cassel, Germany, contains undoubtedly the most unique in the form of a "wooden library" composed of five hundred and forty-six volumes in folio and quarto sizes. The books are made of the different specimens of trees found in the famous park of Wilhelmshoehe. On the back of each of these singular books is pasted a large shield of red morocco, which bears the popular and scientific name of the tree and the family to which it belongs. Each label is inlaid with some of the bark of the tree, the moss and lichen, and a drop or two of the resin, if the tree produces it. The upper edge of the book shows the tree in its youth, cut from a horizontal section, with the sap in the center and the concentric circles. The same method prevails with the lower edge, showing the changes that have taken place.

The two covers, as well as the side edge of each book, are of green and polished wood, and contain the following notations: "Density of wood in spring, summer and beginning of winter, rise and fall of temperature, the properties of the tree and the soil in which it grows." The interior of the book, in the shape of a box, contains in manuscript the history of the tree, with numerous hints as to its treatment, etc., capsules filled with seeds, buds, roots, leaves, etc. The inner sides show the diverse transformations which take place from bloom to fruit.

The author of this singular and ingenious library is Carl Schiedbot, of whose identity, however, little is known. All that can be definitely stated is that in 1771-1786 he was the director of the Cassel menagerie. Afterward he became bailiff of Weissenstein, the Wilhelmshoehe of today. It was at that time that he began work upon the "original collection, which he presented to William IX. of Hesse in 1799. That he must have been possessed of wonderful mechanical skill, combined with the genius of an artist, is visible at the first glance of these curious books, which describe a whole forest in this novel way.—Chicago News.

## A Republican Hat.

Lord Justice Barry, whose retirement from the Irish judicial bench, owing to ill health, was recently announced, is, says Cassell's Journal, a typical Irishman. As a former member for Dungarven, he is well known to old parliamentarians, who remember the racy stories he used to tell of his countrymen in the most fascinating of brogues. As for his own mots, their name is legion, but one is well worth recalling at the present time. While at the bar in the '60s he was engaged in the defense of a political "suspect" who was arraigned on the charge of being a member of the Irish Republican Brotherhood, and in the course of the evidence a policeman deposed that the accused habitually wore a republican hat.

"What sort of a hat is that?" asked the presiding judge.

"I suppose, my lord," interjected Barry, "that it will be a hat without a crown."

Bench, bar, prisoners, policemen and spectators joined in a hearty peal of laughter, and it was some time before business could be resumed.

## The Power of His Eye.

It is told of Van Amburgh, the great lion tamer, that on one occasion in a barroom he was asked how he gained his wonderful power over animals. He said:

"It is by showing them that I am not in the least afraid of them and by keeping my eye steadily on theirs. I'll give you an example of the power of my eye."

Pointing to a loutish fellow who was sitting near by he said:

"You see that fellow? He's a regular clown. I'll make him come across the room to me and I won't say a word to him." Sitting down, he fixed his keen, steady eye on the man. Presently the fellow straightened himself up, rose from his seat and came slowly across to the lion tamer. When he was close enough he drew back his arm and struck Van Amburgh a violent blow under the chin, knocking him clean over the chair, with the remark: "You'll stare at me like that again, won't you!"—Philadelphia Times.

## A SINGULAR STORY.

It Is Sent Out from Kirksville, Missouri.

## WATCHES WERE WOUND.

A Mystery Connected With a Jewelry Store That Has Never Been Explained.

Lawrence Hart, of Hart & Son, the oldest jewelry firm in Kirksville, Mo., recently had an experience which puzzled him not a little and for which there can be found no explanation. He has never been a believer in ghosts, yet this strange circumstance has shaken his faith in the ability of science to account for all manifestations attributed by spiritualists to unseen hands.

Several years ago a big fire in Kirksville destroyed the Masonic temple, and the jewelry store of Hart & Son, which adjoined the temple, was completely crushed by the falling walls of the larger building. Mr. William Hart and his son, Volney, who were at the time endeavoring to carry out some of the more valuable jewelry, were caught in the falling debris and Volney was instantly killed, while his father was terribly mangled.

Lawrence Hart, the son, who relates the strange experience, was at that time "holding cases" on the Lincoln, (Neb.) "Journal," and returned home to take charge of the jewelry business after the accident. After the fire the jewelry store was rebuilt and the business is being continued at the same place. Several strange things occurred from time to time after the rebuilding of the store, but nothing was said regarding them, Mr. Hart thinking he would unearth some explanation.

This last experience, however, was too much for him, and he declares there can be no explanation upon any other hypothesis than that of spirit return. Here is the account in his own language, as he recently related it to a party of intimate friends:

"Father was not yet able to get down to the store, except as he was wheeled in an invalid chair, and as our residence is nearly a mile from the store he did not arrive until quite late—sometimes until after noon. As usual in jewelry stores, there were upon this particular morning several watches which had been left to be regulated after having been repaired. I opened up, and dusted out as usual, then took the watches from the vault.

"My first duty in the morning was always to wind and set these watches, which I immediately prepared to do, by carrying them to the front of the store and sitting them down opposite the regulator. The first watch I picked up seemed to be wound, and on examining it I found that it was not only wound, but running with the regulator to a dot. I thought this a little strange, and picked up another. Judge of my surprise when I found the second one to be wound up tight and set. One by one I tried every watch and found that all had been wound up and set that morning.

"To say that I was puzzled does not approach it. I was dumfounded, and the longer I pondered over the strange occurrence the more unfathomable it seemed. I hurriedly examined the back doors, but they were securely fastened, just as I had left them the night before. I searched every nook and corner of the store, but there were no signs of any human having been there before me. That the watches had been wound and set recently was certain. They were all wound tightly. Then they were all running exactly with the regulator, and there was not a watch in the lot that would not have varied perceptibly in ten hours, while others would have been away off.

"The only keys to the store were carried by father and myself, and while it is altogether improbable that any one could have entered the store, it would have been utterly impossible to have opened the safe in which the watches were kept, for the time lock was on and running until after I arrived. After father arrived, I related the matter to him, and he was positive that he had not been out of his room during the night, nor had the key left his possession. He was puzzled equally with myself.

"I can account for the strange occurrence only upon the theory of spiritualism. Some unseen power and intelligence must have attended to the winding and setting of those watches while they remained in the vault, before I arrived at the store that morning. Before the death of

my younger brother, Volney, he had always opened the store and attended to the watches."

The entire family, with the exception of Lawrence, are spiritualists and for a good many years have been leading investigators of the phenomena in Kirksville. They are old citizens of the place, have been established in business for over a quarter of a century, and are especially esteemed for their integrity.

## IT IS A SOAP FAKE.

And Was Worked on Several Nevada Ladies.

A soap peddler was working the town yesterday, says the Nevada Post. To a lady, the wife of a prominent business man of the city, he offered a box of about a dozen cakes of soap for \$1.00, and he represented that with each sale of \$1.00 worth of soap he would send, in about two weeks, a Haviland tea set of 60 pieces.

A china dealer was seen by a Post reporter and he said the value of such a tea set would be about \$17 or \$18. As it is evident that not even a soap peddler could afford to give a \$17 tea set with every \$1.00 sale of soap, it is most likely the agent is a rank swindler.

Several ladies are reported as buying soap from this peddler on the above terms. If people don't want to be swindled, they should let peddlers of every description alone and deal exclusively with home merchants.

## WHO SANDFORD IS.

The Young Man Who Was Killed by a Fellow Tramp at Nevada.

Miss Clara Sandford, sister of the young man who was killed at Nevada two weeks ago by a fellow tramp named E. C. Smith, arrived there last Saturday from Parsons, Kan.

She says her brother's name was Harry Sandford, and that he was 26 years old, and a barber by trade. His parents reside at El Dorado Springs, Mo., having moved there recently.

E. C. Smith, who killed Sandford, is now in jail. He admits that he cut Sandford, but declares that it was not done with malicious intent.

### A Few Facts.

Some people do business alone for what money there is in it, regardless of their future reputation or standing, and when they start out to buy cattle for their market they buy cattle the same way. Anything that is cheap catches their eye—quality cuts no figure with them. It is different with us. We will not be tempted with cheap stuff; it must be strictly first-class or no trade at any price. We are using cattle right now that came right out of the feed lot, corn fed and prime. We are the only market in Sedalia today that is using corn fed cattle. We have no use for the grass trash that is being used at this time in Sedalia. We are determined to hold our reputation, let it cost what it may, and still continue to pay good prices and get the best cattle.

If you will just stop in we will show you some beef that nothing in this city can be found to equal it, and all we ask of you is to ask your neighbor, who buys from us, and see what they have to say of its quality. Everything is held in cold storage until it is made prime and juicy. Try one of our roast beef and you will be convinced you have been doing business at the wrong market.

Leave word at our market and we will call at your house daily and get your orders, or telephone 120. NEWTON MEAT CO.

## CORBETT AND FITZ.

Some Prospect for Their Meeting in Dallas.

Despite the quiet, though determined, opposition of the ministers of Dallas, Tex., it looks at times as though the big fight between Jim Corbett and Bob Fitzsimmons will come off in that city without serious interference.

The sentiment of the entire town seems to be in favor of the fight being brought off, and if these interests can bring any influence to bear upon the people who control the licensing of these pugilists to give an exhibition of sparring, the chances are immeasurably in favor of the fight coming off.

Dan Stuart's big bluff about consulting the citizens of Galveston in relation to transferring the game to that city has had the desired effect, namely, arousing the Dallas people to a sense of their situation. A largely attended and enthusiastic meeting of the leading business men of that city was held, at which the sentiment was overwhelmingly in favor of the meeting. Although the feeling is divided in respect to the chances of bringing off the fight, the predominant feeling may be summed up in the following words of the secretary of the Florida Athletic club, which is back of the enterprise: "Notwithstanding the threatened injunction, you may rest assured that the contest will take place unless the death of one or both of the principals intervenes."

## A DEADLY DUEL.

Battle of Brothers-in-Law; One Killed and One Wounded.

Charles Buckley was killed and Edward O'Donnell was shot in the arm a few miles south of Lexington last Saturday night.

The men were brothers-in-law and the difficulty arose over one of the men and his wife separating.

O'Donnell killed his man with a double-barrelled shot-gun loaded with buck shot, firing both barrels at him. O'Donnell was not seriously hurt.

"We had an epidemic of dysentery in this vicinity last summer," says Samuel S. Pollock, of Brice-land, Cal. "I was taken with it and suffered severely until some one called my attention to Chamberlain's Colic, Cholera and Diarrhoea remedy. I procured a bottle and felt better after the first dose. Before one-half of the bottle had been used I was well. I recommended it to my friends and their experience was the same. We all unite in saying it is the best."
